FOR
YOUR
BUSINESS

1) **COLOR TV DISPLAY**

Whether displayed in a window or on a counter any screen size can be used.

2) **COMMODORE VIC-20™ COMPUTER**

Inexpensive computer power.

3) **THE ELECTRONIC SIGN**

The software/hardware cartridge plugs directly into the VIC-20™ computer.

The excitement of color and motion produced by THE ELECTRONIC SIGN attracts the attention of those prospective customers who might otherwise pass your business by. The crisp, vivid messages displayed across the screen demand to be read. Imagine having your own newspaper headlines broadcasted by your own television station. In essence, THE ELECTRONIC SIGN is the logical extension of all forms of modern media thus appealing to the public at many levels.

Designed to be extremely easy to use THE ELECTRONIC SIGN gives the operator a colorful paintbrush and the variety of 20 different billboards to express their messages to the fullest.

With THE ELECTRONIC SIGN the possibilities are endless.

VIC-20™ is a registered trademark of Commodore
